

SOCIAL MEDIA AND MEDIA PERMISSIONS

At Fraser Primary School we are always looking for ways to involve our community in classroom learning and to share what is happening at school. The use of school managed social media applications, including our Facebook page, help us to provide valuable learning opportunities for students and strengthen the home school partnership.

Assemblies and Concerts

Due to COVID-19 we have made changes to our assembly and concert format. As our assemblies are currently facilitated through a Google Meet, we are not able to invite the community 'online' for the assembly until the majority of our students have permission for their images to be viewed on these types of platforms. Similarly, we have turned to video more often to capture student work, and we would like to be able to share this with students. We have added an extra box on the permission slip for this purpose.

Facebook

The Fraser Primary School Facebook page can be found at <https://www.facebook.com/FraserPrimary>, the main aims of this page are:

- to share student work and achievements
- to share information about school events and activities
- to provide a secondary source of information in regard to policies, community expectations, news and updates.

Depending on what it is, some of this information is also shared in other places, such as the Fraser Primary School App, the school newsletter and by email. Sending information through multiple sources helps to ensure that the message reaches as many people as possible.

As our Facebook page becomes more popular, we would like to increase the variety of what we are posting, including more posts that feature our students engaged in learning. One way to do this more easily is to share photos and videos of our students taking part in lots of different activities.

If you've been following our Facebook posts, you might have noticed that so far, most of the photos and videos we have shared do not show our student's faces. This note asks your permission to include images or photos of your child on our Facebook page.

If you give your permission for your child to be included in this content, please fill in the attached permission form and return it to info_fraserps@ed.act.edu.au

Safety and Privacy

Unlike personal Facebook profiles and private Facebook groups, our Facebook pages are visible to anyone with a Facebook account, whether they have 'liked' the page or not. This means that anything we post is essentially public.

When posting content to Facebook, staff will follow these guidelines:

- we will only publish photos or videos of students with their parent/carer permission (as per this note)
- only student's first names, photos, work samples and videos will be published
- student's surnames, addresses, email addresses, phone numbers, dates of birth and other personal information **WILL NOT** be published
- we will not share anything that might be deemed offensive or inappropriate
- we will actively monitor comments on the Facebook page and remove any that are deemed inappropriate, offensive or disrespectful.
